How to Play

Fill every empty square with a number from 1 to 9.

Each row, each column and each of the nine 3 x 3 boxes (outlined in thick lines) must contain every number from 1 to 9 exactly once.

The bold numbers are already in place. Every puzzle has exactly one answer, and you never need to guess.

Four levels, four snowflakes

Easy (one snowflake, puzzles 1 to 40): many numbers are given, and each empty square can be worked out by looking at its row, column and box.

Medium (two snowflakes, 41 to 80): fewer numbers given. You will often need to ask where a number can go, not just which number fits a square.

Hard (three snowflakes, 81 to 120): you will need the third trick on the next page, and now and then the fourth.

Very Hard (four snowflakes, 121 to 160): for confident solvers. These need the pairs trick too.

Tips

Use a pencil with a good eraser. Small notes in the corner of a square help on harder puzzles.

The answers are at the back, with the starting numbers in bold. Merry Christmas, and happy solving!
